

PSI's LDMS

Licensing and Data Management Solution

PSI is recognized as a leader in providing unique solutions and services to more than 100 government regulatory agencies. Our Licensing and Data Management Solution (LDMS) is the most comprehensive multi-board licensing and credentialing system in the industry with the capability to conduct all licensure activities, education program administration, auditing, enforcement, utility and reporting features securely through a web-based solution.

Critical to public service is the regulation of the people and businesses that affect health, safety and welfare of its citizens. PSI partners with government regulatory agencies to meet their mandate to protect the public and provide citizens with the services they have come to expect. The PSI LDMS unburdens staff of repetitive data entry and frees agencies and departments to focus on its core mission of regulating.
